

Someone In Your Property Wants Fullerton Fiber Internet

What Is Fullerton FiberCity Fiber Optic Internet?

Fullerton Fiber Internet is a state-of-the-art fiber optic network being constructed exclusively for the city of Fullerton, California. All residents and businesses can take advantage of the network by signing up for service. Signing-up to take service now saves your place in line so you will be one of the first activated with the fastest Internet available today.

The Fullerton Fiber network is being constructed with the most cutting-edge technology used today. As the fiber optic network is being installed through city streets, teams will begin installing fiber directly to your residence or business, giving you access to incredibly fast and reliable Internet. Once GigabitNow Internet has been installed, you can start to stream, work, play and use home automation devices like never before. Not to mention access to the latest technology, streaming television and Internet services for healthcare, business, education and more. GigabitNow Internet makes your life easier.

Awesome GigabitNow Fiber Internet

250 Mbps Residential

250 Mbps Upload/Download

\$60 /mo

1 Gbps Residential

1 Gbps Upload/Download

\$79 /mo

We Need Property Owners Help

To deliver Gigabit Fiber Internet service to multi-tenant buildings or rental properties we need the help of the building owner. To service tenants in rental properties, we need to secure a Right of Entry (ROE) agreement with the building owner or management group. An ROE is a document where the owner, or manager, of the property grants to GigabitNow a non-exclusive right of entry for ingress and egress to the property and building to install the new fiber optic network to the dwelling or building.

As the new GigabitNow's Fullerton fiber Internet services surpass all of the incumbent providers in the area for speed, reliability, support many renters will be eager to sign-up. Once we receive your approval our installation team will take care of everything while making sure to meet any requirements you have for installation. Our teams have done thousands of multi-tenant building installs and are one of the best teams in the nation.

GigabitNow offers you the best in fiber Internet speeds and reliability, but it also gives your property a little extra as well. Fiber optic Internet values and benefits for MDU style properties are second to none.
