

Reliable, Scalable, Secure Internet Services

The best choice for business fiber Internet connectivity for small, medium and enterprise businesses in Columbus, Indiana, is now available. GigabitNow is delivering a brand new fiber optic network throughout the city of Columbus able to deliver the speed and reliability today's business world needs. We connect your business to just about anywhere, including many places other networks cannot reach or locations they will not go!

Designed to Get Business Done Faster

- ✔ Business Solutions for All Sizes of Business
- ✔ Connectivity from 100 Mbps to 10 Gigabits and More
- ✔ Disaster Recovery and Secure Backup Services
- ✔ Continuous Security and Risk Mitigation Services
- ✔ Cloud — Private, Hybrid, Bare Metal and More
- ✔ Scalable — Get the Bandwidth as Your Demands Change

Already on a Contract — No Problem!

Want to take advantage of the speed and reliability of our new 100% fiber network, but your business is already on contract with another provider? We have you covered. We have multiple solutions that will allow you to take advantage of this advanced fiber optic network and save money. Our SD-WAN solution allows you to continue to use your current provider but also use a circuit with us, allowing for redundancy and more bandwidth with the little additional cost. Once your term is done with that other provider, we can upgrade your connection for better throughput, reliability and savings!

We provide a number of connectivity solutions for today's business needs. Our base packages meet many customers' needs, but we can build a custom package to match your company's specific needs at an unbeatable price. Just give us a call today.

✉ Sales@GigabitNowIndiana.com

GigabitNow's connectivity options feature diverse entry points and regional paths. Should an unplanned carrier disruption or severed communications path occur, your operations will reroute and remain intact. Our connectivity network includes three carrier hotels, points of presence in multiple West Coast cities and multiple Tier 1 and Tier 2 carriers. We have data centers across the West Coast, with over 100,000 square feet of tier-3 class space available in Seattle alone, with further availability across the world, or in our custom cloud solutions — MasterCloud. GigabitNow helps businesses achieve a diverse range of connectivity goals.

Business Class Phone Service

Our business phone needs service has a unique service package with the newest phone and calling features at a fraction of the cost and without all the hassle and extra charges common with other providers. Our business phone service experts can build a custom solution to match your business needs.

\$49/mo
