Who is GigabitNow?

GigabitNow is a privately owned fiber Internet service provider based in Seattle, WA. With 30 years of experience, we specialize in delivering affordable fiber Internet to communities that are stuck using outdated technology like cable and DSL. GigabitNow delivers fiber Internet solutions that match specific and unique needs, from small business to enterprise, providing out-of-the-box approaches and fiber network solutions. Our live customer support is available 24/7 and is U.S.-based to assist all of our customers no matter which service level they choose for their company.

GigabitNow Fiber Internet In Indiana!

Unlike large, publicly owned Internet service providers, GigabitNow chooses to invest in smaller, under-served communities, like Bloomington, Columbus and Shelbyville, by bringing ultrafast fiber Internet to every home and business in town. GigabitNow is committed to allowing all of Bloomington, Columbus and Shelbyville to experience the Internet how it is meant to be with affordable prices and customizable packages.

To learn more about the new fiber Internet for businesses in Bloomington, Columbus and Shelbyville visit GigabitNowIndiana.com.
